2021-2022 OFFICERS

Lt. Governor	
President	John Field
Past President	Charlie Nguyen
President Elect	Carole Thoming
1 st Vice-President	
2 nd Vice-President	
Secretary	John Hertle
Treasurer	Bill Gordin

DIRECTORS

Hugh Brereton Jeremiah Williams

Dan Fitzgerald Harold Petersen

Don Ahrens John Thoming

Call to order 12:05 by **Prez John**

Pledge led by **John H**

Patriotic Song via **Don A**

Invocation given by **Carole Ann**

President John introduced his guest, Chris Field, his bride of 43 years (44 correct by Chris) Chris is also his best friend, Pickle Ball partner and Netflix companion now 'binge' watching "The Morning Show"

John also explained the rules of Pickle Ball ..as.. tennis on a smaller court

Hugh mention something about not liking dentists but liking **John** and something about a Nashville Dentist? (Not sure)

Carole Ann reported on the Wool Growers event, 30 attended food great as usual. She will try to set it up in the spring again.

John H had a sad \$ (although he didn't have \$) for **Craig** who finally reached his limit of Hot Sauce on one of the dishes!

Craig reported on "The Park" (last week's meeting). Well attended, **Jerry Short** looked great! Food was very good and **Craig** joked (not really) that we gained 5 lbs. on the desert alone! After Lunch we were led on a tour of the very nice facility.

Craig also reported that we sold 312 ticket for the Ciappino Event and 73 were a 'no-show'.

Prez John reported that **Carole Ann** was incorrectly elected to the Board of Directors as she is already on as Prez-elect. **Don A** was nominated in her place last week, nominations closed, unanimous vote to elect **Don A** to the Board!

Jerry was a late arrival as he had to take his wife home from an emergency room visit because of a migraine caused by choking (?) Did I get that right **Jerry**? **Jerry** also drove across the USA in his RV all the way to Arcadia Main. One night he couldn't find a place to camp so he improvised. He was awakened by an angry homeowner who said that he was camping in his driveway! He was nice about it and let them stay the night. **Jerry** also mentioned **Russ Harrison**, former member, had move to the Martha's Vineyard area (I think he said he visited them)

Jeremiah came in late too announcing that he came here last week and was alone (Met at The Park last week) claiming he did not receive the announcements. Wrong email count? oakcraftbyjeremiah@sbcglobal.net
There! Now everyone has it 😊

Craig had a sad \$ for **Jeremiah** and his email

Don A, \$5 for missing Wool Growers but went to the Gallo for the Doo-Wop Concert. EXCELLENT SHOW recommended to everyone that they try to go next time they are here. **Don** also chatted a little about the 'Tropical Cyclone Weather' and the record rainfall.

John H (again, no \$) Went to Visit daughter in Washington where he witnessed dark sky and something falling from the sky, he googled it and was RAIN! Then, he spends the weekend at Pine Mt Lake and watches record rainfall! He also told of himself being really stupid by grabbing a **HOT** pot handle with his nerve damaged hand (Mark has photos if you really want to know)

Bill had \$5 for the Raiders

John F \$2 for nets weeks 49er win
\$2 **John & Carole** Ann's anniversary
\$1 for Chris joining us

John & Carole, \$15 for 15 years but handed in a \$20

Jeremiah had \$5 for attending Harold Whaley's Funeral. Harrold was a vital participant in the Stanislaus Co Fair for over 40 years. (**John H** concerned and also mentioned he went to High school with his daughters) \$10 for his son Michael's 'spinout' near Patterson in the heavy rain. No one hurt except the car!

Charlie, \$s for the Wool Growers. He also took the train to Jack London square with his son. Had a blast!

Chris Field drew **Dan Fs** wining ticket # but Dan picked the wrong marble.

Program:

John Field DDS spoke on the history of Dental Implants. (An outline is attached) Starting 2000 BC! It should be noted that prior to 300 AD implants were done on 'rich' dead people (so they looked good in the casket of reincarnation so they had a full set?)

History of Dental Implants

Humans have used dental implants in one form or another to replace missing teeth.

2000 BC-- Bamboo pegs were used in China to replace missing teeth.

2000 BC—Phoenicians used gold ligature to stabilize loose teeth

1000 BC—mummy of Egyptian King had a front cooper peg for a missing tooth

300 BC – Celtic body had iron peg for a missing front tooth

300 AD—Phoenicians made a fix bridge using gold wire and ivory teeth

600 AD –First true dental implant. Mayans used carved shell to replace missing teeth.
X-rays showed that bone had form around the shell holding it in place

1200 AD Sugar cane is brought to Europe. The start of tooth decay

1600-----In Europe were stabilizing loose teeth with gold wire.

1500-1800 Teeth of underprivileged or cadavers were collected for allotransplantation
As you can imagine this caused all kinds of problems, especially infections
The most famous person doing this in the literature was John Hunter. He said
“that the replacement tooth should be a little smaller to easily fit in the socket.”
But, he is also guilty of spreading Syphilis to seven of his patients.

1700 ---early dentures made using ivory teeth. George W dentures made from lead and Hippopotamus teeth fixed with gold screws he started loosing teeth at age 24 by 1789 when he Became president he only had one tooth left

1790 ----Allotransplantation is phased out with the development of the first dentures made with porcelain teeth.

1800 --- Implant placed made from a gold. Poor results due to inflammation
Thru 1900 different material such as lead and platinum was used for implant, but still poor results 1900-30 Dental Respects

1913 -- Dr Greenfield placed a basket shaped cylinder of Iridio-platinum.

1930 – Vitallium(chromium-cobalt alloy) screws were being used in orthopedic surgery
With very good results. Dentist used these screws to hold plates under the gums.
With a post on top. The first truly successful implants(blade)

1938—Dr Adams placed a stainless steel implant with grooves Boned grew tight around
The grooves holding the implant in place. Caused slight inflammation

1941---the first subperiosteal implant Vitallium

1960 – Implants of Chromium- Cobalt were used. Less inflammation and good bone Growth around the implant

1952 Dr Branemark, an orthopedic surgeon, was studying bone healing and regeneration he place a titanium cylinder in the femur of a Rabbit. To his surprise the bone fused to it.
He felt this type of bone fusion to titanium could be used in all parts of the body
He determined at this time the best titanium came from Russia used in their Nuclear reactors his research showed that the body does not recognize titanium as Foreign body. Titanium as it turns out is strong, lightweight, corrosion resistant Nontoxic and it's flexibility and elasticity is similar to that of human bone

1965 Dr Branemark placed the first dental implant made of titanium.

The first titanium was smooth and took 6 months for osteointegration
Then they etched shorter time
2000 Then they plated the titanium with calcium and phosphate 3 months now

NEXT WEEK:

Board Meeting immediately following the regular meeting.
